

Introduction of Application Lab for Inks & Coatings

Vision

- ▶ To support the growing Inks & Coating industry in India
- ▶ To Provide technical solutions & quick response to customer queries
- ▶ To support customers by demonstrating with new concepts & technologies
- ▶ To support prospective customers by doing performance various trials with their ideas

Ramcharan Laboratory

- ▶ New formulation trials – will provide new concepts & technology to reduce overall cost
- ▶ Comparison test of products – Paint raw material/paints/inks/plastics/Rubbers
- ▶ Colour matching – we doing various colour matching with help of spectro photometer
- ▶ Raw material sourcing – will provide new raw materials sourcing at our end.

Inks & Coating Laboratory Features

- ▶ Well working area
- ▶ Fully equipped to perform various trials for inks & coatings industry
- ▶ Located center of city

Our Equipment's :

1. Dyno mill with ZirmilCe (Ceria Stabilized Zirconia) beads 1.2mm
2. Spectrophotometer cielab + colour matching software
3. Digital vibro shaker
4. Stirrer
5. Weighing balance
6. Film applicator (25/50/75/100 microns)
7. Hegmen gauge
8. Muffle furnace
9. Hot air oven

Note : Laboratory located in Chennai

Ram Charan Company | Samson Tower, 403, L – Pantheon Road, 6th Floor, Egmore, Chennai 600 008. Tamil Nadu, India.
