

Ramcharan inks pact with CIRCOT

Chennai, Apr 2:

Ramcharan - one of key players Chemical Distribution and Logistics in India has signed an MOU with CIRCOT (Central Institute for Research on Cotton Technology), under the Ministry of Agriculture, Govt. of India to evaluate Applications of Nanocellulose in Rubber and allied polymers, for enhancement of functional,

physical and mechanical properties. Ram Charan has a complete technical & development centre, at Chennai, which can aid CIRCOT in testing & development, for this new initiative. Central Institute for Research on Cotton Technology (CIRCOT) located at Mumbai is a premiere research institute of the Indian Council of Agricultural Research (ICAR), under

Department of Agricultural research and Education (DARE), Ministry of Agricultural, Govt of India, doing research in cotton. CIRCOT has the distinction of developing a state of art & India's first Nanocellulose Pilot plant, having production capacity of 10 Kgs per 8 hours. As part of the MoU,

the Ramcharan Techcentre which has a state of art facility for testing on rubber, Research and Development, product development and a strong technical expertise will evaluate the applications in Rubber and allied polymers for enhancement of functional, physical and mechanical Properties.
